

# Elo. Your best bet for touchscreen solutions.

## Don't leave your gaming touchscreen performance to chance.

Every one of our LCD and CRT touchmonitors are designed to deliver the clearest, brightest, longest-lasting, and most innovative performance in the industry.

- Industry leading IntelliTouch surface wave technology for superior clarity
- Revolutionary iTouch "touch-on-tube" technology for brilliant optics and precise play
- Standard displays up to 21", exceptional customization also available
- For player tracking, table management, cash cage, and customer loyalty applications take a look at Elo's 1529L all-in-one touchcomputer
- For bartop or tabletop applications, use Elo's 1547L with projected capacitive technology

Take your designs to the next level. Request information on our new products by calling us at **800-ELO TOUCH** or visiting us online at **www.elogaming.com**

### 1947L 19" LCD rear-mount touchmonitor

The large, brilliant display and wide viewing angle grab the user's attention and the pure glass touchscreen continues to maintain the graphic quality and clarity.
